

Coursing 2025 – Pupils entering S4,S5,S6

Instructions and Guidance

Highlight/ Circle the subjects you would like to study next session. Make sure you select them at the correct level.

Please make sure you take into account the coursing recommendations from your teachers as well as any tracking reports, past attainment, resources available on the school website under ‘Course Choice’ etc before making your choices.

It might be sensible to do your initial selection in pencil and only use pen/ highlighter once you are sure of your final selection.

Make sure you check all the possible combinations before thinking something is not possible, lots of subjects appear in more than one column.

If you choose a Level 6 subject in Column A or Column C, you cannot select a subject in Column B.

If you choose a Level 6 subject in Column D or Column F, you cannot select a subject in Column E.

If there is a combination of subjects that does not appear to work, make a note of it on the back of the sheet and it will be discussed at your coursing interview.

Please make sure you put down **2 reserve subjects** in the space below the table. These will be used where a clash exists and can't be resolved.

S4-6 – you must pick a combination of subjects that matches one of the following:
