

# DIVERSITY

# WHAT IS DIVERSITY?

Wouldn't it be boring if we were all the same?

Luckily our world isn't like that because everyone is different...

*“Regardless of what race, what colour, what sex, what nationality, what sexual orientation - regardless of who you are, equality should always rule! Whatever is right for you is right. Period”*

- Winnie Harlow

Being different from each other is called DIVERSITY and it is an amazing thing!

# WHAT THINGS MAKE US UNIQUE?

# DIVERSITY AT KNOX ACADEMY

We are going to be celebrating diversity at Knox Academy on the evening of February 9th 2023.

At this event we are going to showcase the diversity that exists within our school and local community.

Between now and the diversity evening your registration group will take part in regular activities...

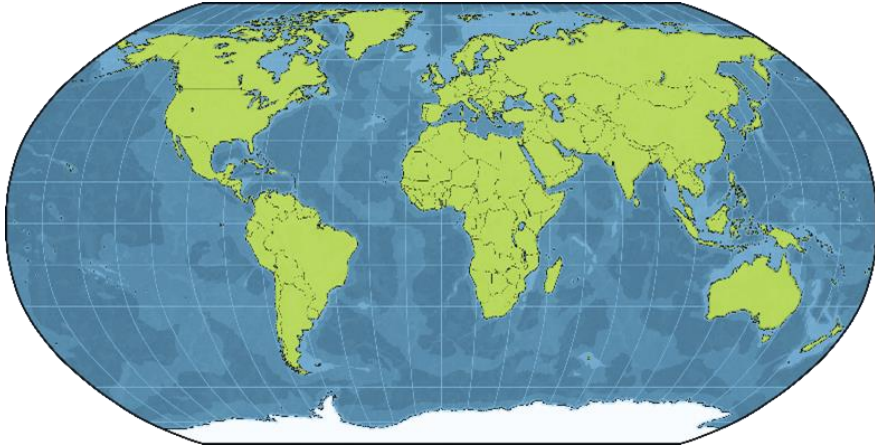

Ambition

Respect

Community

# DIFFERENCES IN HERITAGE

Lots of people originally came from different countries to the one they live in now, or their ancestors did. This can often mean that new ideas, beliefs and customs are shared. This diversity makes life more interesting.

**Ancestors** - your relatives from history

**Customs** - something that many people do or have done, for a long time

**Diversity** - differences

# YOUR FIRST CHALLENGE

Over the holidays we would like you to go home and find out about **YOUR** heritage.

## Where do you come from?

- Ask parents, carers, aunts, uncles, grandparents where your family comes from
- You can go as far back as your GREAT GRANDPARENTS!
- In the Library you will see a world map and each registration class will come down and plot their heritage on the map
