

# KNOX ACADEMY SENIOR PHASE

## GOOGLE CLASSROOM

### ENGAGEMENT EXPECTATIONS

In order to start the new timetable as we mean to go on, we would like to share the following “Engagement Expectations” with you:

1. Once you have joined the classroom, we expect you to engage with learning as fully as you can.
2. When submitting any assignments, you **MUST** submit these via the google form that allows you to upload your document. This is important as it allows your teachers to access and mark your work in one place.
3. If you have any questions, please submit these as a comment on the google classroom so that others can learn from it too.
4. Please only email your teacher if you want to share with them/ask them something that you really do not want to make public.
5. Once the deadline for assignments has passed, your teacher will be focussing on providing class feedback so that you can all move forward in your learning. For that reason, unless otherwise specified by your teacher, there really is no point in submitting work from weeks ago. Just start afresh and try to stick to your homework deadlines as you would in school.

***Please also note the following as set out in our Remote Learning Timetable for May/June:***

***Health and well-being is important*** so take regular breaks during the day for snacks and lunch. If you are well, get outside for some exercise.

*This flexible timetable is about getting things right for you and how you work. If you skip a subject or miss a day, don't worry about this as this will not cause you to fall behind as everyone is following their own programme so there is no one to 'fall behind'.*

***Remember to keep in touch*** with your teachers, and submit some work for feedback. We are all here to help you so please ask.
