

Jade Marongiu

**Head Pupil
Manifesto**

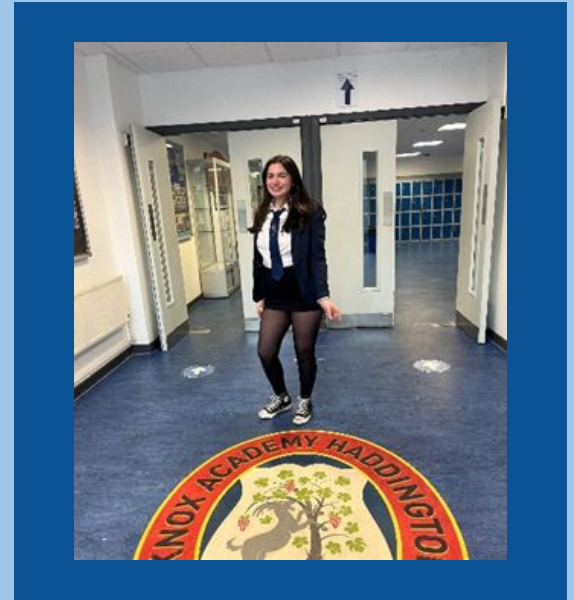

★ 2024 ★

About Me!

Hi, my name is Jade Marongiu! I'm running for head pupil for Knox 2024. During my 5 years at Knox so far, I have learned so many new skills, stepping out of my comfort zone and finding new hobbies such as reading. Because of this I want to give back to the school and that's why I'm running for head pupil!

Skills I have

During my time at Knox, I have been part of various sports teams such as the hockey and netball team, I've also participated in YPI all of which show my ability to work in a team and be a team player, I'm always keen to help within the school such as helping pathfinders move up from P7 as well as the transition days. Even just helping teachers and fellow peers in Knox during the day all show my dedication to the school.

I believe I have the skill to be a great head pupil as I am hard working, put my all into each project, I'm compassionate, I'm organised and will keep up to date, I'm not scared of a challenge and will persevere, I'm a good listener and will make sure everyone is heard and I will do my best to make all my manifestos happen.

My Policies!

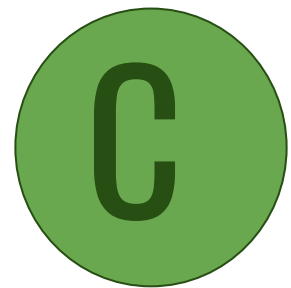

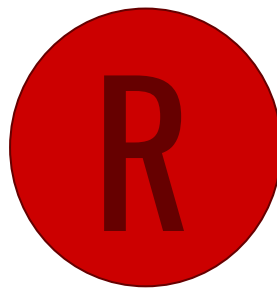

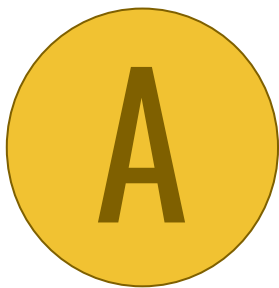

All my policies align with the school values as I believe they are important within Knox

My first policy Is making a display board full of all the help and support that is available in Knox. I plan on making it somewhere communal and keeping it updated regularly and easy to understand. I believe that having an area where all the information is will be beneficial for pupils to find support they require within the school. The support board will contain areas of:

- Guidance support
- Mental health support
- Career advisor help
- Study support timetable

My second policy Is I want to make new clubs and make existing clubs more aware. I believe this will help the mixing of different year groups and allow them to socialise more in a non-classroom environment as I believe it's important that when we come to school, we aren't just learning but socialising also allows hobbies to be made. This will help strengthen Knox's community which is one of the school's values.

My third policy Is to improve our library as it is a commonly used space within all year groups and I wish to make full use of it, by holding a book swap once a year where students can bring in old books they have and swap them for different books or even just picking up a book. I would also like to start a book of the month as this can help widen pupil's genre of reading and help discover new books for pupils to read.

My fourth policy Is to send out google forms every month for pupils to fill out in registration. The google form will contain questions such as:

- Any issues pupils are having
- Anything that should be brought to attention
- Any events pupils would like
- Ideas pupils have

This will allow for the school to be a better environment for all and help to try and solve problems pupils are having as well as allowing pupils voices to be more heard around the school.
