## About me

I'm Murray and here is a little bit about me so you get to know who you are voting for

- I am very determined in achieving my goals and will stick to my values whilst being able to adapt to new ways of thinking and progress further.
- When thinking of my hobbies and past times I would say I am an experienced traveler picking up culture and new ideas after every trip. I would also mention my commitment to the Duke of Edinburgh, Chris Ewing Karate and Haddington's very own explorer unit.
- Throughout my years of volunteering with young people to spark interest into their life's I felt a sense of fulfilment. whilst after many hard training sessions at Karate I felt a wave of achievement and pride. On all Duke of Edinburgh Camps I felt part of a community and led an active role in navigating through challenging terrain.

### But how does that make me the best choice for head pupil?

1. Adaptable thinking. I strongly believe that I am a good listener and will always look out for the pupils best interest.
2. community spirit. I fully aware that the Knox community can be made the best it has ever been with me leading the charge.
3. Determination to achieve. I know that the pupils of Knox Academy are very determined to show off their unique skills and I would love to be able to show off how amazing our peers are not only to the school but to the rest of the local community

### My Policies

1. Mental health. As a person who has seen the benefits of people with mental health problems reaching out for help I am in not a shadow of a doubt that creating QR codes in toilets will allow people to express how they feel discreetly. I am proposing that the QR code leads to a google form where students and teachers can have the option of leaving a report for either themselves or a peer. If I become Head pupil I am certain you will see an increase of people being able to express themselves and thus a happier learning environment will arise.
2. Healthy competition. As a child I was introduced to competition from a very young age I believe that it has made me the head pupil candidate I am today. What I am proposing is a Monthly rota where sports such as Rugby, Football, Hockey, Basketball and Netball are played by teachers and students I think this will strengthen the bond between the people we see everyday and create a feeling of pride and determination
3. Higher support. I believe that everyone at Knox Academy would benefit from more structure given to up coming Higher candidates. For example An easily accessible place for people to give their old Higher flash cards to the year below would take a massive load of pressure of Higher pupils this could also work with Nat 5 pupils creating a larger sense of community and decrease the amount of wastage.
