

'MATHS ON FLAGS' COMPETITION

Schools in East Lothian have been offered an amazing opportunity to create maths calculations that will feature on flags at the Scottish Open in Gullane and seen by viewers all over the world!

Competition Brief

Maths calculations are required for 1-18 flag pins.

- Each flag is to show a maximum of four characters or two superscripts, eg $3^2 + 3^0$
- The mathematical expressions for pin flags Numbers 1-9 are to be produced by P5 – P7 pupils
- **The mathematical expressions for pin flags Numbers 10-18 are to be produced by S1 - S3 pupils**
- Each flag will also include the name of the school that provided the expression along with a decided hashtag

Judging:

Each school to hold their own judging/selection process to submit the expression for each number.

Competition Deadline

Submissions to be with your Maths Teacher no later than Friday 25 May 2018.

Selecting the flags

A final selection of flags will be judged by a panel over the week beginning 4 June 2018. Schools will be advised shortly afterwards. The event partners have very kindly agreed to invite those pupils (and an accompanying adult) to attend the tournament and see their flags in action. The flags will be delivered to the successful schools to keep after the tournament.
